Subject: Roulette Comment

Hi Brian,

I wanted to reach out and see if you could help me address a comment made by the Seneca Nation on the Roulette permit. Ex. 5 Deliberative Process (DP) An EJ Screen was done for this permit and did not trigger any additional review. I've attached the screening results for you to look at. Below I've listed the comment made by the Nation:

President Biden has made a commitment to make environmental justice a part of the mission of every agency by directing federal agencies to develop programs, policies, and activities to address the disproportionate health, environmental, economic, and climate impacts on disadvantaged communities. Clara Township citizens

have voiced their concerns and oppose the permit. If this Application for permit is approved, it raises the question of whether the granting of this permit is consistent with President Biden's environmental justice commitment where the views of the citizens of the local community are not taken into account.

Any help you can give me would be much appreciated.
